ELECTRIC  
ZERO EMISSIONS

**A** severe-duty vehicle success story 75 years in the making, Battle Motors is a new nameplate to many, but we are no newcomer to the industry. Indeed, we are building upon decades of design and engineering knowhow, thanks to the manufacturing legacy of our predecessor, Crane Carrier Company. Today, we are forging a new road ahead in the vocational truck industry, producing work-ready diesel, compressed natural gas (CNG) and now a fully electric chassis designed and manufactured in America's heartland.

Purpose-built for the toughest jobs, if you need battle-tested trucks for fleets of any size, we have got two words for you: Bring It. That is because our durable, dependable trucks are built to excel in a multitude of environments and applications including refuse, recycling, construction, utility and now middle-mile and last-mile delivery.

In the electric vehicle category, Battle Motors is leading the charge with an unrivaled powertrain (and charging solutions) designed in conjunction with world-class US partners. Keeping your operations in the front seat when it comes to the latest in-cab technologies, all our trucks now feature our Smart Cab platform. This pairs our proprietary software system, RevolutionOS™, with factory-installed, ruggedized digital instrument clusters that deliver actionable data and information to drivers and fleet managers to enhance safety, efficiency and security.

Our ambitious vision is already in overdrive, with more than 750 municipal customers through 180 dealers in over 320 locations across the United States and Canada. Our state-of-the-art, 325,000-square-foot manufacturing facility gives us a clear runway to scale-up and transform our customers' operations—through the deployment of fully electric trucks designed to deliver unparalleled comfort, safety, visibility and reliability paired with lower maintenance costs, reduced noise and zero carbon emissions.

At Battle Motors, we are ready to roll into the future. We hope you can join us for the ride.

# LNT

## LOW NARROW TILT

### DIESEL

The Battle Motors LNT is ideal for pick-up, delivery and general transport challenges posed by dense city environments. Strategically designed at 12" narrower than our standard work truck chassis, the LNT expertly maneuvers tight side streets and alleyways; navigating access and service roads with ease.

True low entry 18" step-in height on both sides

With the lowest step-in height in the industry, the Battle Motors LNT is packed with best-in-class features to maximize safety, increase space, and enhance maneuverability. An all-around powerhouse, the LNT thrives in all applications and environments.

Seating for three all forward facing with seat belts

Large, flat, glass windshield; simple to replace and cost effective compared to complex, curved glass

Cast steel, tubular crossmembers provide consistent strength fore and aft, side-to-side

82" cab width engineered to be 12" narrower than our standard chassis for tight applications
